Where Timeless Tradition Meets Unforgettable Experiences!

## Summer's in the Air at Reading Country Club

There's an unmistakable energy around the club these days, summer is in full swing, and the course is jumping! With course construction now complete, the improvements are already making a difference, and the course is playing the best it has in years. It's been great to see so many familiar faces back out enjoying everything RCC has to offer.

One of the highlights this month was our Movie Night on the driving range. Kids were running around, families spread out under the stars, and the big screen brought the fun to life. It was one of those special nights that reminds you what this place is all about, community, connection, and a little summer magic.

There's plenty more to look forward to, so keep an eye on upcoming events. Whether you're here to play, relax, or just take in the view, we're glad to have you with us.

See you at the Club,

**Chuck Gulati**  
-General Manager-

## HOLE 5 CONSTRUCTION IS COMPLETE, COME CHECK IT OU!

Generally speaking, the month of July is the least favorite of every Superintendent I have ever known. Scorching heat coupled with abundant soil moisture can be a recipe for disaster. From June 22nd through June 25th we saw temperatures nearing 100 degrees and prior to the temperatures we saw waterlogged soils. Surely enough, these weather patterns can be very destructive and relentless to golf courses in our region. Preventive fungicide applications can protect from the myriad of diseases that reveal themselves, but they are very costly and not always reliable for more than a week if the conditions persist. Hopefully we can avoid these conditions the rest of summer but it is unlikely. It is for this reason that you will often encounter the presence of sprinklers during golfing hours. The goal of the irrigation is merely to cool the plant in the presence of high heat. While normal irrigation is still utilized during the early hours of the day, the danger is to over-water the surfaces creating a perfect disease scenario. Golf course surfaces are much safer being slightly underwatered than too wet. When you encounter an employee applying water to a green or fairway, we are merely cooling down the grass. Please be patient and allow us to finish when on a green. Trust me, we don't want to interrupt your round and the duration that we will be on a green is very minimal.

Thanks for all the great comments and support, see you on the course.

We'd like to thank all of you who were proactive in helping us update your payment method in the new system which will go into use on July 1st. For those who may have missed this, we are updating our POS system to better serve all of our members, guests and customers on everything golf related as well as Jack's on the Green. If you have a revolving house charge account and have not updated your payment method, please us the link that was sent to you last week or stop in the pro shop and we will update it for you. Thank you again for helping us during this transition.

On a more golf related topic, the Tuesday night Scramble will return again on July 8th. Registration procedures will be the same so get on the list sooner rather than later. Still fills up fast every week. By the time you see this the word will be out, but the green complex on Hole 5 will now be open!
